

Supporting families. Saving lives.

Supporting *Physicians*. Saving Lives.

SADS Introduces New Website Resource for Physicians and their Patients

The SADS Foundation is pleased to announce its new website, www.StopSADS.org, a comprehensive health information center from the leader in educating and empowering channelopathy patients and their families.

The StopSADS website is the premier online resource for you and your patients, offering accessible, authoritative information about cardiac channelopathies and sudden death in the young, its prevention, management and care.

Our new website puts a wealth of valuable content at your patients' fingertips, including:

- Information about cardiac channelopathies, including Long QT Syndrome, Brugada Syndrome, Anderson-Tawil Syndrome and CPVT, tests and treatment options
- Prevention strategies
- Online tools for assessing risk
- Resources for expanding family pedigrees
- Interactive communities, including real-life patient stories and patient forums
- Up-to-date research findings and treatment guidelines for SADS conditions

Empower your patients. Enhance your practice. Improve patient care
Count on www.StopSADS.org as a trusted resource.

The SADS Foundation Mission is to save the lives and support the families of children and young adults who are genetically predisposed to sudden death due to heart rhythm abnormalities. For more information, contact Alice Lara, President & CEO at alice@sads.org or (800) STOP SAD.
