

## **Supporting *School Nurses*. Saving Lives.**

### **What can SADS do for your students & their family?**

- Information for newly diagnosed students/families
- Dedicated patient support line for questions and referrals to an expert physician
- Assistance with insurance issues such as appeals or denials
- Networking for family members

### **What can SADS do for you?**

- SADS Safe Schools: Care Plans, etc. for an affected child's school
- Accredited your school as a Heart Safe School™
- Up-to-date information on treatments and standards of care for individuals who have been diagnosed with a SADS condition
- Quarterly Literature Review—A comprehensive listing of recently published scientific papers and articles about SADS conditions
- Information about SADS patient lifestyle issues such as genetic testing, exercise, medications, AEDs for home use, ICDs

### **How can you support the SADS Foundation?**

- **Become accredited as a Heart Safe School™**
- Add SADS Risk Assessment questions to the school's health forms.
- Develop Individualized Care Plans for all children with SADS conditions
- Order, display, and distribute SADS materials in your school(s)
- **Refer your affected students to the SADS Family Support Line – (801) 948-0654**

### **We want every school to be a Heart Safe School™**

**Count on the SADS Foundation and  
[www.StopSADS.org](http://www.StopSADS.org) as a trusted resource.**
