The 10th Annual International SADS Foundation Conference was held in Toronto, Ontario, Canada, and featured 120 families from 7 different countries who were a part of this conference’s friendship and education including keynote speaker Yvonne Heath, Disease-Specific Sessions, and the first annual Scientific Posters Session.

The combination of seminars presented by Dr. Michael Ackerman and trainings given by the SADS Foundation Speakers’ Bureau resulted in 3,250 health care professionals learning about SADS conditions in 16 different states in order to increase accurate diagnoses and improve care.

The SADS Foundation worked as the conduit between SADS patients and expert research scientists in 17 currently enrolling research studies.

New Patient Line 801-948-0654 was created to provide a one-call service for SADS families.

Nearly 2,000 phone calls or emails messages were completed in service of SADS families.

The SADS Foundation and our families supported the studies of 4 Genetic Counseling students: Lauren Slevin, PhD; Susan Christian, PhD; Brittany Degreef; and Kacie Baker.
