

**SADS**  
FOUNDATION

*Supporting families. Saving lives.*

**Our goal: To get 100,000 calls made to Congress TODAY to urge that meaningful health care reform gets passed this year.**

*Will you make your call right now?*

1. First, find out how you can find how to email, call and tweet your Congressional representatives contact information at [www.usa.gov/Contact/Elected.shtml](http://www.usa.gov/Contact/Elected.shtml).
2. Then, contact your representative. If you do so by phone, when a staff member answers your call, you can say:

- **My name is \_\_\_\_\_** and I am calling from (City, State)
- **I stand with the Sudden Arrhythmia Death Syndromes (SADS) Foundation** in urging all members of Congress to vote “yes” on meaningful, affordable health care reform this year.

Your call might end there, but if you'd like you can also mention that:

- a. Group and individual health care plans must cover any preexisting conditions.
- b. Premiums for health care plans shall not be rated based upon health status, gender, genetic status or claims experience.
- c. Free market programs must prevail but all Americans must have access to the same kind of meaningful choices of health benefits plans that Members of Congress, as Federal employees, enjoy through the Federal employee health benefit program.
- d. Genetic testing is sometimes necessary to determine or confirm a diagnosis for many conditions and under our current health care system not all private health insurance plans pay for testing limiting access for many individuals and families.

**Hearing from hundreds of thousands of Americans all on ONE DAY might just be the motivation Congress needs to put patients FIRST and deliver on reform.** Call by call, you and your fellow SADS Foundation advocates have the power to keep the debate focused on the needs of the patients and families who so desperately need our help.

**Thank you for taking the time to stand up for meaningful reform!**
